DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:
 - a. Claims 13 - 24 are allowable over the prior art of record because it fails to teach or suggest a linear measuring device for measuring a relative position of a first machine element with respect to a second machine element, comprising a guide carriage, which supports said scanning device and is guided on said guide rail along said housing in said measuring direction, wherein said guide carriage is connected to said guide rail, free of play in all directions perpendicular to said measuring direction and said guide carriage comprises a fastener to fasten said guide carriage rigidly on said second machine element in said measuring direction and said all directions perpendicular to said measuring direction; wherein said housing is structured so that during measuring operations it is deflected perpendicular to said measuring direction at least in said guide area, so that in the course of movement of said guide carriage in a direction perpendicular to said measuring direction said housing is taken along in said direction perpendicular to said measuring direction in combination with the remaining limitations of the claims.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
